Do Lafzon Ki Kahani Hd is a Hindi movie starring Rani Mukerji, Shahid Kapoor, Kareena Kapoor, and claims to be based on a true story. In this movie, love brings humans from across the ocean together. This makes it one of the best Hindi movies to download. The Do Lafzon Ki Kahani Hd twists and turns as Rani Mukerji's character time after time forgets her loved one but learns about herself in the process. One of my favorite parts about this Mohit Suri directed movie was how realistic it was in terms of its portrayal of Indian culture and tradition. Rani Mukerji plays an Indian woman who is struggling with her past and the difficult life she lead. Her husband's (Shahid Kapoor) father married their daughter to an American who has been living in India for a few years. The main struggle of this movie is to find out if she was able to move on from the past and adjust to her new life in India. In this part of the movie, you will see Rani Mukerji going back and forth between remembering her past while remembering her present with the help of a handsome American named Jason Ubaldo (Shahid Kapoor). They meet at a wedding that they both attend and then go on a vacation together. I thought it was very interesting to see their relationship grow throughout this part of the movie. There are many parts in Do Lafzon Ki Kahani that will show you how India views marriage. One example in this Hindi movie is when the father in law locks up Rani Mukerji's character with her husband's sister for fear she would go looking for him. Another interesting thing is when Rani Mukerji's character has to choose between her son and her husband at one point in the movie, because marrying outside of your culture can be difficult especially when your family does not agree with it. Overall, I think the message of this movie is that in order to move on from your past in order to have a future you need to let go. Although, in life it may not always be that easy. Do Lafzon Ki Kahani Hd is one of the best Bollywood movies to watch. Rating: 4/5 stars! - Review by Tiana.
